Director Fame Rating

This is part of Mohammad Farahani's MA thesis on LLM-based recommender systems. Answers are analysed by nickname only.

How famous is each of these 40 film directors? Your answers are compared with scores produced by an AI model, to check how well the AI judges fame.

Privacy

No personal data is collected from you. The email address you use is only for signing in to Claude and is never stored with your answers. All that is kept is the nickname you choose and your scores, used only for this MA thesis and reported as group results.

Before you start

- Work alone. Don't discuss your scores with other raters.
- Don't look anything up. Only your own knowledge counts.
- Not sure who someone is? Press Don't know instead of guessing.
- Go with your first impression.

The scale

9-10	Global megastar or legendary filmmaker, known everywhere
7-8	Very famous, several major mainstream hits, wide international recognition
5-6	Well known; recognised by film fans and by audiences in some regions
3-4	Niche; known mainly to dedicated fans or within one genre
1-2	Obscure, local or almost unknown

Your rater label (a nickname is fine)

e.g. Rater A

When you finish, press 'Copy my ratings' at the bottom of the page and send me the result by email or on Telegram. Thank you!
